

care with compassion

HILL ASH HOUSE

CARE CENTRE

HILL ASH HOUSE

Staff are responsible for meeting individual needs and will strive to provide the appropriate degree of care to ensure the optimum quality of living within the centre and its surrounds. Wherever and whenever appropriate we promote independence and personal choice.

Residents can choose from a comprehensive activities programme and the centre publishes an informative newsletter. Relatives are invited to attend regular meetings to discuss issues affecting their loved ones, make suggestions and learn of proposed future activities. The home welcomes and values feedback and we are always open to constructive suggestion.
